

**MANCHACA FIRE/RESCUE
PROBATIONARY FIREFIGHTER SKILLS EVALUATION**

DONNING A SCBA USING THE SEAT MOUNTED METHOD

Objective:

The probationary firefighter shall don a SCBA using the seat mounted method.

Instructions:

While wearing full structural PPE, the PFF will demonstrate the procedure for donning the SCBA using the seat mounted method. The PFF will ride in a moving apparatus for 2 minutes before exiting the apparatus. The skill will end when the PFF states that they have completed off of the identified steps.

Preparation and Equipment:

Apparatus with SCBA seat mount
SCBA and PASS Device with Cylinder
SCBA Facepiece
Full Structural PPE

DONNING A SCBA USING THE SEAT MOUNTED METHOD				
1. Begins skill with PPE properly donned (gloves and helmet do not have to be worn, but must be with the firefighter)				
2. Firefighter is properly seated				
3. Seatbelt is fastened and firefighter remains secured in seatbelt while apparatus is in motion				
4. PFF places arms through the SCBA shoulder straps and partially tightens straps				
5. PFF properly releases SCBA from seat and exits apparatus when break is set or driver indicates it is safe to exit				
6. Seatbelt is released without being entangled in SCBA straps				
7. Fastens and adjusts straps				
8. Turns on cylinder and verbalizes activation or low air alarm				
9. Confirm and verbalize that PASS device activated				
10. Dons and secures facepiece and checks for proper seal				
11. Protective ensemble properly donned, no skin exposed, collar fastened, and helmet chin strap secured under chin				
12. Breathes air from SCBA				
13. Performs skill in a safe and proficient manner
